Risk Statements (CASE)

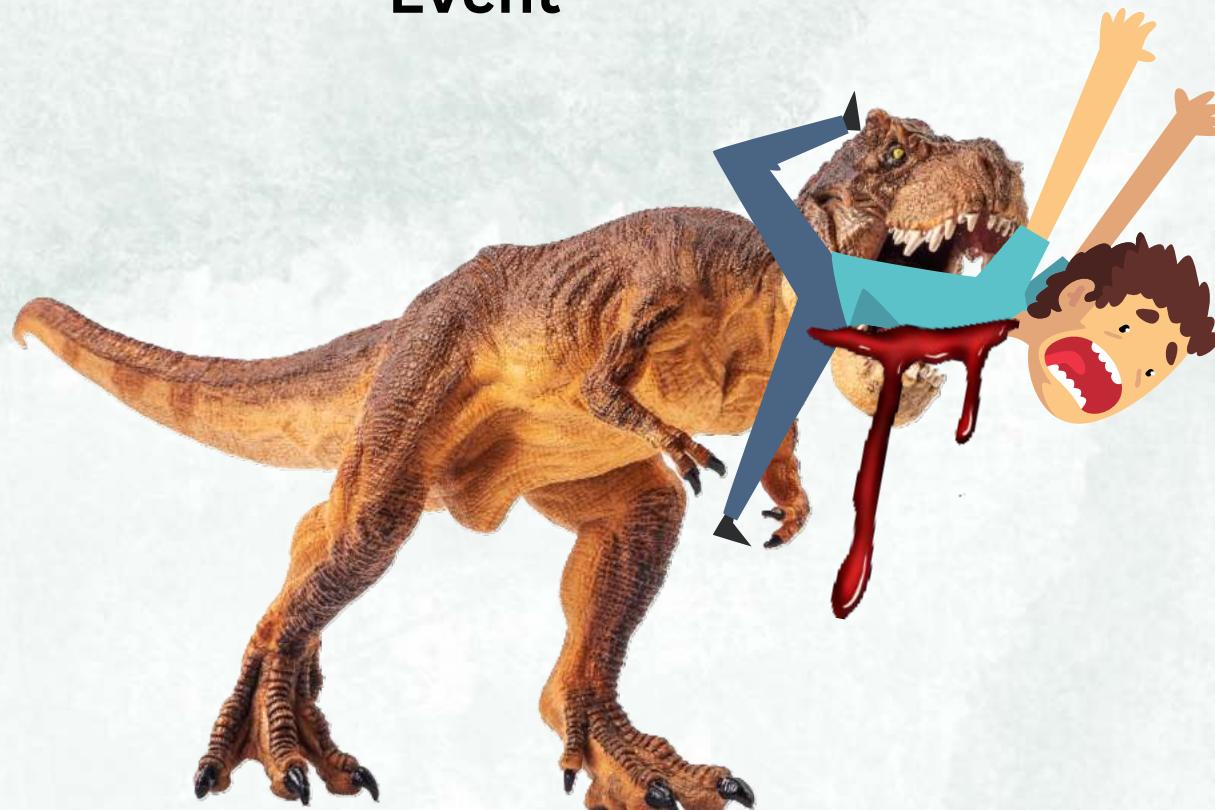

Source

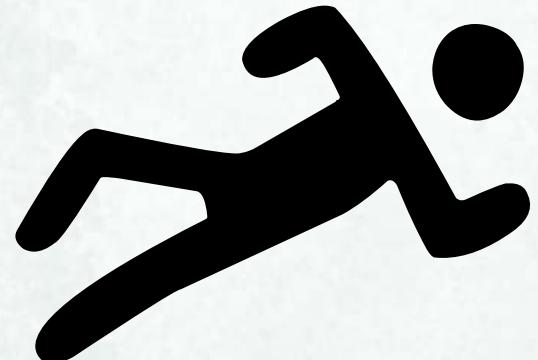

Asset

Event

Consequence

There is a risk that a dinosaur (Source) eats (Event) people (Asset), resulting in fatalities (Consequence).

The greatest risks often hide in plain sight

Hierarchy of Controls

**Eliminate
the risk**

**Substitute
the risk**

**Isolate the
resources
from the risk**

**Engineer barriers
to protect from
the risk**

**Administrative controls
to protect resources**

**Protective equipment
when exposed to the risk**

That's it.
